JUNE 12-14

**SWANSEA MARRIOTT HOTEL
MARITIME QUARTER, SWANSEA
UNITED KINGDOM**

***“A 2,5 DAY PROGRAM, TO GAIN NEW, CUTTING EDGE
KNOWLEDGE ABOUT CALF AND HEIFER REARING.”***

THE TRAINING WILL COVER THE FOLLOWING TOPICS:

- Feeding and management of the dry cow
- Colostrum management; timing, quality, quantity, safety, hygiene
- Feeding options; esophageal tube, bottle, bucket, automatic feeders
- Feeding whole milk or milk replacer, what to feed and how much
- Feeding programs; Intensive feeding strategy
- Rumen development
- Calf starter and feeding
- Weaning the calf
- Housing and grouping
- Grower rations
- Getting them bred on time
- Age of freshening
- Measuring and Monitoring
- Effective protocols
- The economics

The key trainer will be Dr. Earleywine. Next to him we will have Evine van Riemsdijk from Saskatoon Colostrum Company, plus vets and farmers presenting their situation and experiences as well, including a farm visit on the 2nd day.

DR. TOM EARLEYWINE

is Director of Nutritional Services for Land O'Lakes Animal Milk Products where he is responsible for neonatal animal research on over 1500 head annually and provides technical support for North America. Dr. Earleywine has served on the executive committee and as chairman of the nutrition and dairy committees of the American Feed Industry Association Nutrition Council and serves as one of two feed industry representatives on the Bovine Alliance on Management and Nutrition. He also has served on the Growth and Development committee and three times as chair of the Informal Calf Conference for the American Dairy Science Association. Dr. Earleywine has published hundreds of articles in scientific journals and popular press. He received his B.S., M.S. and doctoral degrees from the University of Wisconsin-Madison and was raised on a dairy farm near Brodhead in southern Wisconsin U.S.A.
